

# V SAN OFFICE

DEGREASING DETERGENT READY TO USE, ALCOHOL-BASED,  
WITH SECONDARY SANITIZING ACTIVITY

## COMPOSITION

V SAN OFFICE is liquid, clear, odourless.  
V SAN OFFICE is a water soluble solution containing isopropyl/ethyl alcohol at 18% (V/V).

## CHARACTERISTICS

V SAN OFFICE is a degreasing detergent, ready to use, with secondary sanitizing activity. It contains alcohol, solvents, cationic and non-ionic surfactants and it is specific for the cleaning and sanitization of all surfaces which can't be cleaned with the traditional systems with water. Ideal for frequent use in offices, worktops, equipment and machinery where it's problematic to use big quantities of water.

## APPLICATIONS

For the cleaning and sanitization of all alcohol resistant surfaces in offices and food industry.

## DIRECTIONS FOR USE

Spray on the surfaces to clean, from a distance of 30cm, from 10 to 40 mL of V SAN OFFICE, rub with a clean cloth or sponge and let dry.

## PACKAGING

5kg drums.

## HAZARD

Store away from heat sources, max 30° C and in an aired place, in its original drum well sealed. Based on the current European regulations the product is classified: hazardous (see safety data sheet).
